The Mission of Organique

We are inspired by nature; that is why we endeavor to make the compositions of our cosmetics safe, gentle and effective at the same time. In the products of Organique, you will find the wealth of extracts and ingredients of natural origin. We prepare our products with great care and attention to every detail. Most of them are still handmade.

Knowing how greatly cosmetics influence our senses: sight, smell and touch, we ensure that they are colorful, exceptionally scented and have velvety consistencies. Appreciating the quality of life, we show how to change simple activities into exceptional therapies and rituals. Thanks to that, we help you care for the natural beauty of life every day.

When searching for the perfect therapy, think about the needs of your skin. Each therapy has a specific action profile and its regular use will provide the expected effects. If you need a moment of relaxation combined with care, reach for our rituals. Compose your own sets following scents that you like and effects that you want to achieve. In our offer, you will find a whole range of bath, cleansing, care and always aroma therapeutic cosmetics.

On the following pages, you will find therapies and rituals prepared by us with great care.

We invite you to the aromatic world of Organique.
